Packing dimensions	240*215*25mm

# Installment

Step1: Please use the bracket 1 to hold the fasteners on the edge of solar panels.

Step2: In the mounting holeB1-2 and mounting holeB1-3 of the diagram above, please use a screw1 to hold support 1 on the surface where solar panels are expected to be installed, such as the top of estate car and so on.

Step3&4: Directing the mounting holeB1-1 for bracket 1 and the mounting hole B2-1 for bracket 2, the mounting hole B1-4 for support bracket1 and the mounting hole B2-2 for bracket 2, then use screws2 to securely fixed the mounting hole B1-1&B2-1 and the mounting hole B1-4&B2-2.

Step5: Based on the above installation method, please install the other 5 pairs.
